Program Update
November 24, 2014

Why participate? Economic development for Tennessee communities is about more than recruitment and incentives. Our communities must be making constant strides in improving their quality of life to be globally competitive for jobs. The ThreeStar program can guide Tennessee communities on that journey.

In 2013, we aligned the Three Star program with Governor Haslam's "Five Pillars" – his priorities for public policy.

- Jobs & Economic Development
- Fiscal Strength and Efficient Government
- Public Safety
- Education & Workforce Development
- Health & Welfare

Annual participation in the ThreeStar program helps communities develop a strategy and a plan to address these important goals. The program encourages local community leaders, representing the 5 program areas, and Joint Economic and Community Development Boards (JECDB) to implement activities that will impact these quality of life issues – and therefore their global competitiveness.
